3 BILL NO. R-79-11- 59

4
5 RESOLUTION NO. R- 05-80

6 A RESOLUTION RECOMMENDING STUDY OF
7 REMOVAL OF LIME SLUDGE AND SILT
8 BUILD UP ADJACENT TO THE FILTRATION
9 PLANT AND NEAR THE CONFLUENCE OF
10 ST. MARY'S AND MAUMEE RIVER.

11 WHEREAS, there exist large deposits of lime sludge, and
12 silt build up in the river beds at and near the Fort Wayne
13 Filtration Plant and at the confluence of the St. Mary's River
14 with the Maumee River in the City of Fort Wayne, Indiana; and,

15 WHEREAS, Sand Bag Coalition, a group of citizens of the
16 City of Fort Wayne, Indiana has proposed removal of said lime
17 sludge and silt build up at and near the confluence of the said
18 rivers in order to reduce flooding by deepening said rivers
19 and increasing the amount and rapidity of flow of water; and,

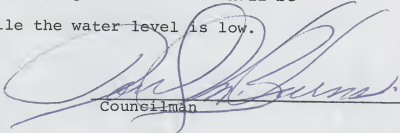

20 WHEREAS, others contend that dredging the rivers is only
21 one factor in the continuing flood control controversy, said
22 other claimed factors being the expansion of dikes along the
23 rivers and development of a river bank park system along
24 the waterways to reduce the flooding; and,

25 WHEREAS, it appears that at least dredging the rivers
26 and removing therefrom lime and other sludge at the Fort Wayne
27 Filtration Plant and near the confluence of the St. Mary's
28 River with the Maumee River merits consideration.

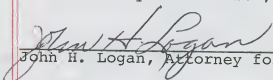

29 NOW THEREFORE BE IT RESOLVED BY THE COMMON COUNCIL OF THE
30 CITY OF FORT WAYNE:

31 That immediate steps be taken to commence a study
32 of the dredging of the lime sludge and other sludge
33 from said St. Mary's River at least from the Spy
34 Run Avenue Bridge east to the confluence of said
35 St. Mary's river with the Maumee river and that

1
2
3 said study project be undertaken with all due
4 speed when the level of the river has been lowered
5 so that if said dredging is done same shall be
6 accomplished while the water level is low.
